

QUINCO
MENTAL HEALTH CENTER

MENTAL HEALTH

HELLO,

.....

How important is your mental health?

Mental health should share the same importance as your physical health. How can we be of service to you and your loved ones?

.....

We have provided mental health and recovery services for over 50 years. We specialize in assisting those facing behavioral health or substance use disorders through a holistic treatment team approach. This method incorporates wrap-around services to deliver evidence-based treatment tailored to each client.

OUR SERVICES:

OUTPATIENT THERAPY

Licensed and master's level therapists provide individual, family, and group therapy. Specialized services are available for children, adolescents, older adults, and individuals with substance use disorders.

CARE COORDINATION

Specially trained professionals provide comprehensive services to help bridge the gap between physical and behavioral health. These professionals focus on assisting each client in reaching their full potential.

MEDICATION MANAGEMENT

Our medical staff performs individual assessments and, when beneficial, prescribes medications that can aid in the individual's recovery. This service is frequently combined with therapy and care coordination.

CRISIS SERVICES

Our Crisis Response Team provides free 24/7 support for adults experiencing a behavioral health emergency. This support can range from a listening ear to, when necessary, a connection to inpatient care.
